DATE: 24 April 1967

FROM : DIAPL

SUBJECT: Changes to CIP Review Schedule

Changes in 1967 CIP Review Schedule.

a. The Review Schedule set forth on pages I-3 thru I-6, 1967 CIP Operating Instructions, must be revised because of delay in receipt of the CIP Program Change Requests (PCR's) from the Military Departments. The revised schedule for the 1967 CIP Review is transmitted at enclosure 1. This revised schedule is based on current forecasts of the dates that the Army and Navy CIP submissions will be received by DIA. Further revision of this schedule may be necessary if the CIP PCR's are received later than the dates shown in enclosure 1.

b. Revised schedules for briefing DIAPL, DIADD, DIADR, the Military Intelligence Board, and the Review Group are transmitted at enclosure 2. It is requested that the head of each DIA action office attend the briefings presented by his office for DIADD, DIADR, and the Review Group.

c. Any last minute changes to enclosure 2 will be passed by telephone to the individual Functional Program Coordinators. As in the past, last minute changes will no doubt be made for various reasons. Briefing Officers should remain flexible as to their availability on the date scheduled for briefing and be prepared on short notice to brief earlier or later than their scheduled time.
